RSLSF Safety Form – Microorganisms

To make sure that all projects are carried out safely, any participant working on a project using microorganisms must 1) have a qualified scientific supervisor and 2) acknowledge that the following YSC guidelines are followed.

Biosafety Practices

Recombinant DNA and Biotechnological Safety

This form must be signed by the participant(s) and the scientific supervisor who is overseeing the project before beginning the project. Please note that if human or animal subjects are used, additional ethics forms must be completed.

I acknowledge that I have read the guidelines above and the attached document and will follow safe procedures under the supervision of my scientific supervisor while working on my project. I am also aware of the hazards of any of the chemicals used in this project and will use them safely.

I understand that neither microorganisms, nor hazardous chemicals can be used for display at the fair, only their pictures.

Name of Participant 1: _____ Signature: _____

Name of Participant 2: _____ Signature: _____

Name of Scientific Supervisor _____

Affiliation/Qualifications _____

Signature of Scientific Supervisor _____

Date: _____
